

1 Q. **Asset Management**

2 Do Transmission and Rural Operations (TRO) personnel investigate unexplained
3 relay operations? If yes, who does the investigations?
4
5

6 A. Typically, Asset Specialist and Equipment Engineers in Transmission and Rural
7 Operations (TRO) investigate unexplained relay operations for the less complex
8 system events. For the more complex issues, Protection and Control Engineers with
9 Project Execution and Technical Services and System Operations Engineers from
10 System Operations are utilized.
