

1 Q. Further to PUB-NLH-450, please provide the dates by which the identified critical
2 spares for each of the Holyrood generation station, the gas turbines and hydro
3 generation facilities will have been actually acquired by Hydro.
4

5
6 A. Please see Hydro's response to PUB-NLH-452. For critical spares not currently in
7 stock, Hydro is continuing to evaluate those spares that it believes should be kept in
8 stock and such evaluation is planned to be finalized by the end of November 2014,
9 as previously indicated in Hydro's October 15, 2014 update to its report entitled
10 *Additional Reporting to the Board of Commissioners of Public Utilities Related to*
11 *Generation Availability*. With respect to any critical spares which Hydro determines
12 require Board approval, Hydro will file (as was recently done with the application
13 for critical spares at the Holyrood Generation Station filed on November 4, 2014)
14 the necessary application(s) when that determination is made.
