

1 Q. Reference PUB-NLH-279: Please state whether a different LOLH will be used for the  
2 planning of the standby generation resources post LIL.

3

4

5 A. Hydro is currently reviewing its planning reliability criteria post LIL. The results of  
6 that review will establish the criteria Hydro will apply in establishing its  
7 recommended capacity requirements. Therefore, it is possible that post LIL, a  
8 different LOLH will be used for the planning of the standby generation resources.  
9 Hydro plans to have a recommendation on a new generation planning reliability  
10 criteria by the end of 2016.
