

1 Q. Please explain why Hydro has not performed an overall probabilistic reliability
2 evaluation, as was recommended by MHI in their 2012 report "Report on Two
3 Generation Expansion Alternatives for the Island Interconnected Electrical System,
4 Volume 2: Studies".

5

6

7 A. Hydro engaged Teshmont to perform this evaluation. The final report is being
8 completed and will be submitted for the Phase II Inquiry.
