

- 1 **Q. Have substation inspection, repair (CM), and preventive maintenance (PM)**
2 **practices changed since 2009? Are there any changes beginning in 2014? Please**
3 **describe in detail any changes in terminal station/substation inspection and**
4 **maintenance practices including changes beginning in 2014.**
5
- 6 A. Substation inspection and maintenance (CM and PM) practices have not materially
7 changed since 2009. As was indicated in the response to Request for Information
8 PUB-NP-066, Tap 4 Vibration Analysis was included as part of the inspection process
9 beginning in 2012.
10
- 11 There are no changes planned to the substation inspection and maintenance practices for
12 2014.
