

- 1 **Q. What are the titles of the persons who make the final recommendations and**
2 **decisions for determining which capital projects are budgeted each year for**
3 **transmission, for substations, and for distribution?**
4
- 5 A. The Vice-President, Customer Operations and Engineering is primarily responsible for
6 determination of which capital projects are included each year in the annual capital
7 budget of Newfoundland Power. Consultation with other Company executives is
8 typically part of the Vice President, Customer Operations and Engineering's decision
9 making process.
10
- 11 The Vice-President, Customer Operations and Engineering works directly with the
12 Manager of Engineering, Manager of Operations, Regional Managers, and senior
13 engineers responsible for the transmission, substation, and distribution asset classes in the
14 development of the annual capital budget.
