

- 1 **Q. Does Newfoundland Power measure the accuracy of its Estimated Restoration**
2 **Times during storm restorations? If so indicate accuracy percentage.**
3
4 A. In the response to Request for Information PUB-NP-166, Newfoundland Power indicated
5 that it does not compare estimated to actual restoration times during either scheduled or
6 unscheduled outages. The response also indicated that Newfoundland Power does not
7 retain estimated restoration time data and is thus unable to do such comparisons
8 retroactively.
