Ladies & Gentlemen:

Re: The Board's Investigation and Hearing into Supply Issues and Power Outages on the Island Interconnected System – Phase Two Schedule

This is further to the Board's request dated November 21st, 2014 for comments on today's date regarding the Board's proposal of December 1st, 2014 as the deadline for the filing of first round Requests for Information in Phase Two of the Board's Investigation and Hearing into Supply Issues and Power Outages on the Island Interconnected System (the "Investigation").

On September 19, 2014, Newfoundland Power submitted Requests for Information NP-NLH-1 to NP-NLH-35 to the Board. Those Requests for Information relate to reliability issues after the Muskrat Falls interconnection has been established, and are therefore relevant to Phase Two of the Investigation. The Requests for Information seek basic information regarding the post-Muskat Falls electricity supply on the Island Interconnected System to further consideration of this matter by Newfoundland Power and its expert. As of this writing, responses to 17 of the 35 Requests for Information remain outstanding.

Newfoundland Power anticipates issuing additional Requests for Information in Phase Two of the Investigation. However, we do not anticipate issuing further Requests for Information until we have had an opportunity to review all of Hydro's responses to our initial Requests for Information. In that regard, by copy of this letter Newfoundland Power requests that Hydro advise when it anticipates providing responses to these outstanding Requests for Information.

Newfoundland Power has no comments regarding the appropriateness of December 1st, 2014 as a deadline for the Phase Two Requests for Information of other parties to the Investigation.

We trust the foregoing is found to be in order.

Yours very truly,

Gerard M. Hayes
Senior Counsel
