

- 1 **Q: The Liberty Report states that if a 110 MW recall is available for island needs, a**
2 **Muskrat Falls delay is less threatening. There are news reports that Alderon**
3 **may need 60 MW - 70 MW and an expansion has been announced to the Iron**
4 **Ore Company of Canada facility in Labrador, some 28%, which will also**
5 **require some energy.**
6
- 7 (a) Was Liberty aware of reports of the revitalization of the Alderon Project
8 in writing its report?
9
- 10 (b) Was Liberty aware of the expansion announced to the Iron Ore Company
11 of Canada facility when writing its report?
12
- 13 (c) What impacts could developing Alderon and the IOC expansion have on
14 the 110 MW recall available for island needs?
15
16
- 17 A. (a) Liberty is unaware of the Alderon Project and any potential effects on load in
18 Labrador.
19
- 20 (b) Liberty is unaware of the potential expansion of the Iron Ore Company of
21 Canada and any potential effects on load in Labrador.
22
- 23 (c) Neither the ESRA nor Hydro's response to PUB-NLH-630 suggest any risk to
24 the availability of the 110 MW recall power. Liberty has no information upon
25 which to base any assessment of load growth in Labrador nor do we have any
26 information upon which to question the availability of the 110 MW recall
27 power.
