

1 **Q. Re: 2017 GRA Compliance Application, Exhibit 3, Table 15, page 13 (p. 77 pdf)**

2

3 a) Please confirm that the differences identified in Table 15 reflect only changes in the  
4 data centre load forecasts. If not, please explain their source(s).

5

6 b) In the affirmative, please explain how the updated data centre forecast resulted in  
7 a decrease in gas turbine and diesel costs in 2019.

8

9

10 **A. a)** It is confirmed that the differences identified in Table 15 reflect only changes in the  
11 data centre load forecasts.

12

13 **b)** As noted in Exhibit 3, Page 13, lines 1-3:

14

15 The impact of the updated data centre loads on 2019 Test Year Supply Costs is  
16 a net increase of approximately \$0.1 million as compared to the 2017 GRA. The  
17 increase in purchases is offset by a decrease in average gas turbine and diesel  
18 fuel prices from the 2017 GRA.
