Dear Ms. Blundon:

Re: *Reliability and Resource Adequacy Study Review – Listing of Planned Reports, Studies, and Analyses*

In addition to the documents already listed in Hydro's *Listing of Planned Reports, Studies and Analyses*, the Labrador Interconnected Group recommends that Hydro perform studies or analyses regarding:

1. The potential for short-term energy sales to Quebec in order to, among other things, avoid future spills; and
2. Potential resource additions to supply energy and capacity in Labrador.

Sincerely,

A handwritten signature in cursive script that reads "Nick Kennedy".
