Dear Mr. Hayes:

**Re: Newfoundland and Labrador Hydro - Reliability and Resource Adequacy Study
Review - Request for Intervenor Status**

The Board has reviewed the request of Newfoundland Power for intervenor status in this proceeding and agrees with Newfoundland Power that, as the primary distributor of electricity to customers on the Island Interconnected system, Hydro's near-term and long-term resource planning decisions have a direct impact on the reliability of service provided to its customers.

The Board is satisfied that Newfoundland Power has a direct and material interest in the issues being considered in this proceeding and that its participation as an intervenor may assist the Parties in its understanding of the issues under review.

If you have any questions please contact the undersigned.

Sincerely,

A handwritten signature in cursive script, appearing to read "Cheryl Blundon".
