Dear Sirs/Madams:

**Re: Newfoundland and Labrador Hydro - Reliability and Resource Adequacy Study
Review - Record and Proceeding**

This further to our letter of December 4, 2019 and the Board's Notice dated December 11, 2019 inviting participants in the Board's review of Newfoundland and Labrador Hydro's Reliability and Resource Adequacy Study.

The following parties have been granted Intervenor Status to participate in this review:

- i) Newfoundland Power Inc.
- ii) Island Industrial Customer Group; and
- iii) Consumer Advocate.

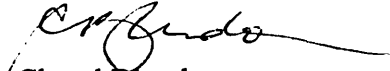

On December 4, 2019 the Board advised that the record for Phase Two of the Supply and Outage Investigation was closed and all issues which continue to be relevant would be addressed in the review of Hydro's Reliability and Resource Adequacy Study. All compliance filings and reports from Phase Two which are continuing to be filed should now be labelled as its own report and not be referenced as a Phase Two document. All information filed related to the Reliability and Resource Adequacy Study should also be referenced and labelled accordingly.

Attached is a contact list for the purpose of distributing paper copies and electronic information in this matter. We ask that you review the list and advise of any errors or omissions. The Board will update the distribution list as necessary.

Parties are requested to follow the routine guidelines for the filing of documents with the Board.
If you require a new copy of the guidelines please advise.

If you have any questions please contact the undersigned

Sincerely,

Cheryl Blundon
Board Secretary
