

1 Q. **Newfoundland and Labrador Hydro - EFLA Consulting Engineers Report - *Structural Capacity***
2 ***Assessment of the Labrador Island Transmission Link, April 30, 2020 ("EFLA" Report)***

3 With respect to comments by Hydro at the June 4, 2020 Technical Conference, please state
4 whether it has been confirmed that all LIL line sections and components have as-built structural
5 capacities at least equal to their as-designed capabilities with respect to wind and ice loadings.

6

7

8 A. Please refer to Newfoundland and Labrador Hydro's response to PUB-NLH-082.
