

1 Q. **Newfoundland and Labrador Hydro – Near-Term Reliability Report, May 15, 2020**

2 **Other Near-Term Issues**

3 Please state whether Nalcor personnel will be operating the LIL during the trial operation
4 period, and if so, what training will have been provided to the operators before they take
5 control of the LIL, and if not, when will the operators receive the necessary training. If not, how
6 many operators will be provided by GE.

7

8

9 A. During the trial operations period, Nalcor Energy’s Power Supply Technical Operators will be
10 responsible for operating the Labrador-Island Link with support from both on-site and remote
11 GE personnel. External contractors embedded within the Power Supply Operations group have
12 been engaged over the past two years to administer various technical training modules to
13 operations personnel, and training courses have also been facilitated by GE. Attendees included
14 operators, control technologists, supervisory personnel and select management.
