3 Does Hydro have any concerns with respect to how deferred supply cost amounts will practically
4 be recovered from customers, provided the magnitude of the deferred amounts and the
5 magnitude of projected ongoing operating and sustaining capital costs? If not, why not?

8 A. Newfoundland and Labrador Hydro's ("Hydro") proposals in the Supply Cost Accounting
9 Application reflect Hydro's concern with the requirement to materially increase customer rates
10 to provide recovery of supply costs. Please refer to part a of Hydro's response to PUB-NLH-008
11 which indicates how Hydro believes it is preferable to be fully informed on the rate mitigation
12 plan in developing its proposals for recovery of deferred supply costs.
