

1 Q. **Reference: Holyrood Accelerated Depreciation**

2 Please reconcile the difference in the numbers included in Footnote 57 on page 28 and the
3 \$32.2 million in Table 6.

4

5

6 A. An update to footnote 57 was inadvertently missed. The correct numbers are as follows: “The
7 forecast \$32.2 million is comprised of \$23.4 million of Holyrood TGS accelerated depreciation
8 and \$8.8 million of capital costs that may be required to be treated as operating costs because
9 they are in service less than 12 months.”
