

1 Q. According to Appendix A, page 7 of 7, Section B - 1.2, Hydro notes that the Industrial Customer
2 Rate Stabilization Plan (“RSP”) rate adjustments and the Utility Rate RSP rate adjustments are
3 scheduled for January 1, 2022 and July 1, 2022, respectively. However, it is also noted that “the
4 timing of the required rate revision will depend on the implementation schedule for the rate
5 mitigation plan.” Please confirm that Hydro will be filing applications with the Board for
6 proposed RSP rate adjustments effective for January 1, 2022 and July 1, 2022.

9 A. Newfoundland and Labrador Hydro plans to file applications with the Board of Commissioners of
10 Public Utilities for revisions to proposed rate stabilization plan adjustments effective January 1,
11 2022 and July 1, 2022; however, the release of the rate mitigation plan by the Government of
12 Newfoundland and Labrador could influence the rate adjustment proposals reflected in these
13 applications.
