

1 Q. **Reference: Volume II - Tab 25 - Replace Light-Duty Mobile Equipment**

2 Table 2 on page 2 shows the number of light-duty mobile equipment purchased annually
3 doubling from 24 in 2017 to 48 in 2021. What were the reasons for this increase?

4

5

6 A. Newfoundland and Labrador Hydro considers the 2017 number of units budgeted to be an
7 outlier when considered in light of the historical average of 37 units for the period 2011 to 2020.
8 For 2021 and 2022, the number of additions to the light-duty mobile equipment were based on
9 the number of units needed to be replaced based on condition assessment and life cycle cost.
