

1 Q. **Reference: Application**

2 With respect to the island interconnected system, please provide a table, starting with 2010,  
3 that contains the annual production from Hydro's hydraulic generation, Holyrood generation,  
4 other thermal generation, power purchases via the LIL, power purchases of imports via the  
5 Maritime Link, other power purchases, total island interconnected customer load, and total  
6 customer load including Maritime link exports.

<sup>1</sup> Up to the end of the second quarter of 2022.

<sup>2</sup> Includes gas turbines and diesels, negative numbers are the result of low production years and a net station service consumption.

<sup>3</sup> Includes energy that will be exported over the Maritime Link.

<sup>4</sup> Net generation, inclusive of transmission and transformer losses.
