

1 Q. **Reference: Request for Information NP-NLH-001.**

2 Further to Request for Information NP-NLH-001, please confirm which of the expenditures
3 associated with the supplemental applications shown in Table 1 for 2023 to 2027 are included in
4 Hydro’s Five-Year Capital Plan (2023-2027).

5

6

7 A. All supplemental expenditures listed for 2024–2027 in the Five-Year Capital Plan (2023–2027)¹
8 are included in Table 1 of Newfoundland and Labrador Hydro’s (“Hydro”) response to NP-NLH-
9 001 of this proceeding.

10 The expenditures for 2023 include all supplemental applications included in the Five-Year
11 Capital Plan (2023–2027) plus three additional supplemental applications filed since the filing of
12 Hydro’s 2023 Capital Budget Application. Two of these applications have been approved² while a
13 decision is pending on the third.³ Hydro is currently reviewing capital expenditure requirements
14 for the Holyrood Thermal Generating Station in light of the “Reliability and Resource Adequacy
15 Study – 2022 Update,” as outlined in its response to IC-NLH-013 of this proceeding.

¹ “2023 Capital Budget Application,” Newfoundland and Labrador Hydro, July 13, 2022, vol. 1, sch. 2.

² “Application for Approval to Relocate a Distribution Line and for the Contribution by Anaconda Mining Equal to the Cost of the Relocation,” Newfoundland and Labrador Hydro, July 22, 2022, which was approved as per *Public Utilities Act*, RSNL 1990, c P-47, Board Order No. P.U. 28(2022), Board of Commissioners of Public Utilities, August 22, 2022 and “Application for Approval to Construct a Three-Phase Line in Hampden and for a Contribution in Aid of Construction for a Portion of the Costs,” Newfoundland and Labrador Hydro, July 26, 2022, which was approved as per *Public Utilities Act*, RSNL 1990, c P-47, Board Order No. P.U. 26(2022), Board of Commissioners of Public Utilities, August 19, 2022.

³ Application for Approval of Capital Expenditures Necessary to Address Supply in Charlottetown and Pinsent's Arm, Labrador,” Newfoundland and Labrador Hydro, October 7, 2022.
