

1 Q. **Reference: Schedule 6, Program 3 Replace Diesel Gensets (2024-2028), Pages 14–15**

2 How were the cost estimates for the 2024 program determined?

3

4

5 A. Cost estimates were determined using a combination of quotes from suppliers for materials,
6 expected labour requirements and contract work, and actual spends of past projects with similar
7 scopes. This information was then input into estimating software to apply appropriate
8 contingency and escalation.
