

1 Q. Schedule 1, Page 14. Hydro notes that the 545kW unit can be installed in the existing footprint
2 of the engine hall. Will the installation of the three larger fuel tanks mean a greater footprint on
3 Labrador Inuit Lands?

4

5

6 A. The installation of the three new fuel tanks will be contained within the existing fence line of
7 Newfoundland and Labrador Hydro's property. Therefore, it will not require a greater footprint
8 on Labrador Inuit Lands.
