

1 Q. **Re: Reg. 17 Exemption Application, p. 4 (page 7 pdf) and Schedule 5 (page 19 pdf)**

2 **Citation 1:**

3 Innu Nation is requesting service for a Cultural Centre and Museum intended
4 to be located in Sheshatshui. Their application for service, attached to this
5 application as Schedule 5, indicates a total connected load of 516 kW. Hydro is
6 currently working with the Innu Nation to determine the estimated peak load.

7 **Citation 2 (Schedule 4):**

8 Heating: 241 kW

9 a) Please describe the nature of the heating system to be served by the requested power.

10 b) Please describe the steps taken by the applicant to maximize the efficiency of the heating
11 system.

12 c) Are heat pumps being used? If not, why not?

13 d) Please indicate if any modifications to Hydro's distribution system would be required to
14 serve this request and, if so, to what extent the costs thereof would be assigned to the
15 applicant.

16

17

18 A. a) As noted in Newfoundland and Labrador Hydro's ("Hydro") response to LAB-NLH-001 of
19 this proceeding, Hydro has a legislative obligation to provide customers in the province
20 with equitable access to reliable power in a non-discriminatory manner. The information
21 requested is not necessary for this purpose and is not relevant to the present application.

22 b) Please refer to part a) of this response.

23 c) Please refer to part a) of this response.

24 d) No substantive modifications to Hydro's distribution system are anticipated to serve this
25 request. If any standard distribution work is necessary for the connection, Hydro's standard
26 policies with respect to cost allocation, including the Contribution in Aid of Construction
27 policies, would apply.
