

1 Q. **Reference: Application**

2 What is the all-in average rate for all end-use customers on the Island Interconnected System?
 3 What is the current rate for residential customers on the Island Interconnected System, both all-
 4 in and energy charge only?

5
 6
 7 A. The average all-in rate for Domestic and General Service customers is more appropriately
 8 sourced from Newfoundland Power Inc. as the primary retail provider of such service on the
 9 Island Interconnected System.

10 Table 1 provides the Energy Only rates for each customer class on the Island Interconnected
 11 System as of August 1, 2024, the average all-in rate for Newfoundland and Labrador Hydro’s
 12 (“Hydro”) Industrial customers, and the domestic average all-in rate based on information
 13 available to Hydro.

**Table 1: Energy and All In-Average Rates on the Island Interconnected System
 Effective August 2024**

Rate Class	Energy Only	Average All-In ¹
Domestic	14.237 (¢/kWh)	15.25 (¢/kWh) ²
General Service 2.1	Block 1 <3,500 – 14.098 (¢/kWh) Block 2 >3,500 – 11.143 (¢/kWh)	
General Service 2.3	Block 1 <50,000 – 12.325 (¢/kWh) Block 2 >50,000 – 10.369 (¢/kWh)	
General Service 2.4	Block 1 <75,000 – 11.965 (¢/kWh) Block 2 >75,000 – 10.289 (¢/kWh)	
Industrial	4.428 (¢/kWh)	8.57 (¢/kWh) ³

¹ Excludes harmonized sales tax.
² Assumes 1,270 kWh of usage.
³ Average end-use rate for 2023 based on approximately 334,000,000 kWh of usage.
