

1 Q. **Reference: Project 5 Install Mid-Span Structures - TL220 (2025-2026)**

2 The five-year capital plan includes Relocate Section of Line (2026-2028) - TL220, a multi-year
3 project with costs of approximately \$3.7 million. Please explain the relationship between the
4 2025 project to install mid-span structures and the multi-year project to relocate a section of
5 TL220.

6

7

8 A. None of the mid-span structures proposed in the 2025 project are located in the section of
9 TL220 that is planned for relocation in 2026. All of the mid-span structures proposed for
10 installation will be located within the first 17 km of TL220, and are expected to remain in service
11 for the indefinite future.
