

1 Q. Further to the response to PUB-NLH-055, Hydro states that it intends to retest the unit and
2 review the data with the support of a consultant in September 2024. Did Hydro complete the
3 retest in September? If yes, please provide the results of the unit retest. If not why not?

4

5

6 A. Yes, the unit retest was completed in September 2024, as planned. Newfoundland and Labrador
7 Hydro (“Hydro”) sent the data to a third-party consultant for review at that time. The results of
8 the test were inconclusive and the consultant has recommended another test be completed by
9 Hydro. Hydro plans to complete further testing and re-submit the data to the third-party
10 consultant within six weeks. Hydro will provide the Board of Commissioners of Public Utilities
11 with an update when the results have been finalized.
