

- 1 **Q. Further to PUB-NP-098, operating labour costs are forecast to increase by 3.15% in**
2 **2022F as compared to 2021F and 3.0% in 2023F as compared to 2022F. How is this**
3 **consistent with the statement that there is a 1% efficiency each year? Are there any**
4 **additional operating efficiencies included in labour costs in 2022F and 2023F?**
5
6 **A. See response to Request for Information PUB-NP-098.**
