Subject: MUN Transformer Cost
Categories: [REDACTED]

As a senior consumer of NL Power I strongly object to NL Power request to raise rates by !.6 million dollars to cover cost of the transformer. For years taxpayers subsidized lower tuition for MUN students, residency status mattered very little, if they had a whiff of a cousin in NI, they paid extremely low tuition. Then the Provincial government allowed a freeze to continue, now the university is in a mess but I aim opposed to this bailout.
