

- 1 **Q. (Reference CA-NP-065(c)) Please confirm that Newfoundland Power is**  
2 **promoting accelerated EV adoption in the province, but is not adding EVs to its**  
3 **own fleet until it gains experience with EVs and monitors trends in the EV**  
4 **market.**  
5
- 6 A. Newfoundland Power can confirm that it is promoting the accelerated adoption of EVs in  
7 the province and that it is gaining experience with the use of EVs in its fleet. To date,  
8 the Company has added four EVs to its fleet with an additional electric pickup truck  
9 scheduled for delivery in 2022. In 2023, the procurement of passenger vehicles will  
10 request vendor quotes for gasoline/diesel powered vehicles and electric or hybrid  
11 equivalents. A vehicle requiring replacement may be replaced with a hybrid or EV model  
12 if it is determined to be least cost for customers.<sup>1</sup>
