3 **Q. Reference: "2024 Capital Budget Application," Newfoundland Power Inc.,**  
4 **June 22, 2023, 2024 Capital Budget Overview, sec. 2.3.3, p. 10.**

5  
6 **The estimate also includes reduced operating costs as a result of**  
7 **the *LED Street Lighting Replacement and Application***  
8 ***Enhancements* projects, and the customer benefit associated**  
9 **with the continued operation of the Mobile and Lookout Brook**  
10 **hydro plants.**

11  
12 **What is the value of the customer benefit associated with the continued**  
13 **operation of the Mobile and Lookout Brook hydro plants that is included in**  
14 **the estimated increase to the Company's annual revenue requirement?**

15  
16 **A.** The proposed refurbishment of the Mobile and Lookout Brook hydro plants will result in  
17 the continued provision of low-cost energy to customers. The customer benefit  
18 associated with the continued operation of both the Mobile and Lookout Brook hydro  
19 plants is estimated to be approximately \$4 million.<sup>1</sup>

---

<sup>1</sup> Based on revenue requirement impacts associated with Hydro's Marginal Cost Update, dated December 2022, partially offset by the annual revenue requirement for continued operation of the plants.
