5 A. Newfoundland and Labrador Hydro ("Hydro") confirms that Newfoundland Power Inc.'s  
6 ("Newfoundland Power") description of Hydro's practices in assigning costs for assets benefiting  
7 only one customer and Hydro's use of Newfoundland Power's Contribution in Aid of  
8 Construction Policy is accurate. The remainder of the question requires Hydro to provide  
9 submissions regarding evidence filed by Newfoundland Power in its application. If Hydro  
10 determines that it is necessary to submit a further position on these issues, Hydro will consider  
11 doing so in its final submission.
