

1 Q. Reference: Exhibit 4, Appendix B, page B-1:

2

3 Exhibit 4, Appendix B shows a calculation of the customer billing impact for  
4 Newfoundland Power of a revised Utility rate based on an April 1, 2017 rate  
5 implementation date. Please provide a revised calculation based on a July 1, 2017  
6 rate implementation date. The calculation should include Hydro's latest forecast of  
7 RSP current plan and fuel rider rates to be effective July 1, 2017.

8

9

10 A. The information required to prepare this response is not available as Hydro has not  
11 yet received the fuel forecast for use in establishing July 1, 2017 customer rates.

12 Hydro will provide the Newfoundland Power customer billing impact reflecting a  
13 July 1, 2017 Utility rate implementation date, including the actual RSP factors, in  
14 accordance with the current RSP rules, on the 10<sup>th</sup> working day of April.
