

1 Q. Assuming the revenue deficiency could be assigned to individual industrial
2 customers, provide, in a table format, the amount that would be assigned to each
3 customer for each year, setting out the amount associated with the specifically
4 assigned charge for each customer for each year.

5

6

7 A. Hydro does not take issue with the mathematical calculations provided by NARL
8 which estimated from a high level the revenue deficiency for each customer. Please
9 refer to response PUB-NLH-002.
