Re: Quarterly Update – Items Impacting the Delay of Hydro's Next General Rate Application

In Order No. P.U. 15(2020),¹ the Board of Commissioners of Public Utilities ("Board") approved Newfoundland and Labrador Hydro's ("Hydro") request to delay the filing of its next general rate application ("GRA").^{2,3} The Board directed Hydro to file quarterly updates with respect to the filing of its next GRA beginning on September 30, 2020 and to include the following:

(i) Information related to:

- a. The timeframe for the commissioning of the Muskrat Falls Project ("Project");
- b. The financial restructuring of the Muskrat Falls Power Purchase Agreement ("Muskrat Falls PPA");
- c. The completion of the Government of Newfoundland and Labrador's ("Government") rate mitigation plan; and

(ii) Projected 2021 cost increases and Hydro's plans to address these increases.

Muskrat Falls Project Schedule

As part of its ongoing *Reliability and Resource Adequacy Study Review* proceeding, Hydro continues to provide updates on the status of the Labrador-Island Link ("LIL") and the Muskrat Falls Hydroelectric Generating Facility ("Muskrat Falls Facility"), as well as other relevant operational and commercial information.⁴ The update provided herein reflects the information that was available as of the date of this correspondence.

¹ *Public Utilities Act*, RSNL 1990, c P-47, Board Order No. P.U. 15(2020), Board of Commissioners of Public Utilities, May 27, 2020.

² "Application to Delay the Filing of Newfoundland and Labrador Hydro's Next General Rate Application," Newfoundland and Labrador Hydro, April 15, 2020.

³ As per *Public Utilities Act*, RSNL 1990, c P-47, Board Order No. P.U. 16(2019), Board of Commissioners of Public Utilities, May 7, 2019, the Board directed Hydro to file its next GRA no later than September 30, 2020 for rates based on a 2021 Test Year.

⁴ Please refer to "*Reliability and Resource Adequacy Study Review – Labrador-Island Link Monthly Update – June 2023*," Newfoundland and Labrador Hydro, July 6, 2023, for Hydro's most recent update.

Muskrat Falls Hydroelectric Generating Facility

On November 22, 2021, Unit 4—the final of four units at the Muskrat Falls Facility—was released for service and accepted into commercial operation. As such, the Muskrat Falls Facility is considered commissioned pursuant to the commercial and financial agreements.⁵

Labrador-Island Link

On April 14, 2023, the Independent Engineer issued a Confirmation of Commissioning Certificate and the lender's representative issued a Commissioning Confirmation acknowledging that all of the conditions required for commissioning of the LIL pursuant to the project financing agreement were achieved, and that commissioning had occurred on April 14, 2023. As such, the LIL is officially commissioned in accordance with the project financing and revenue agreements.⁶

Financial Restructuring of the Project Agreements and Government's Rate Mitigation Plan

The finalization of the \$1 billion federal loan guarantee, the \$1 billion investment by the Government of Canada in the province's portion of the LIL, and capital restructuring for the Project agreements was announced by Hydro on March 31, 2022.⁷

The \$1 billion investment by the Government of Canada in the LIL was made in the form of a convertible debenture. On August 15, 2023, the first drawing on the convertible debenture of \$144.7 million was received by LIL (2021) Limited Partnership, and on August 28, 2023, the funds were transferred to Hydro for the purpose of rate mitigation, reducing the balance in the Supply Cost Variance Deferral Account.⁸

With the commissioning of the LIL, Hydro is continuing to actively and frequently engage with Government on an ongoing basis regarding the finalization of the rate mitigation plan. As project costs have been finalized, the focus is on finalizing the details and mechanisms that comprise the rate mitigation plan.

Projected Supply Increases

The approved Supply Cost Variance Deferral Account was put in place to address the cost impact of the contractual requirements related to the Project⁹ and was effective as of November 1, 2021.¹⁰ Hydro commenced recovery of Project costs and implemented a Project Cost Recovery Rider effective July 1, 2022.¹¹ The Board approved the continuation of the Project Cost Recovery Rider within Hydro's 2023 Utility Rates Adjustment application.^{12,13}

⁹ *Public Utilities Act*, RSNL 1990, c P-47, Board Order No. P.U. 33(2021), Board of Commissioners of Public Utilities, December 8, 2021.

¹⁰ *Public Utilities Act*, RSNL 1990, c P-47, Board Order No. P.U. 4(2022), Board of Commissioners of Public Utilities, February 21, 2022.

¹¹ *Public Utilities Act*, RSNL 1990, c P-47, Board Order No. P.U. 19(2022), Board of Commissioners of Public Utilities, June 21, 2022.

¹² The Board approved the continuation of Project Cost Recovery Rider at 0.798 cents per kWh in *Public Utilities Act*, RSNL 1990, c P-47, Board Order No. P.U. 15(2023), Board of Commissioners of Public Utilities, June 1, 2023.

¹³ Payments are credited to the Project Cost Recovery – Utility component of the Supply Cost Variance Deferral Account.

Proposed Timing of Hydro's Next GRA

Contingent on the finalization of the details of the Government's rate mitigation plan, Hydro expects the earliest timeframe for filing its next GRA to be the latter half of 2024.

Hydro continues to estimate that it would require approximately nine months to prepare its next GRA. With the commissioning of the LIL complete, this timeline would begin once Hydro has certainty related to the details of the Government's rate mitigation plan, as without having the required information, Hydro does not have adequate certainty to develop a test year forecast revenue requirement for use in its GRA filing. Hydro is cognizant of the regulatory inefficiencies that would result if its GRA proposals are not reflective of the final rate mitigation plan.

Hydro will continue to provide quarterly updates to the Board on the timing of its next GRA and will confirm a more defined timeframe for the filing of its GRA when further information is available.

Should you have any questions or comments about any of the enclosed, please contact the undersigned.

Yours truly,

NEWFOUNDLAND AND LABRADOR HYDRO
